Sourdough Bread: Bread raised without yeast. The very first bread, about 1500 Bc. was baked this way. Because of the long rising time the sourdough bread gets a special, rich and ripe flavour.

Stompetoren cheese: This cheese is one of the best rated cheeses in the Netherlands in terms of flavour and consistency. The cheese features itself with a rich flavour and a low fat and salt degree.

Free-range eggs: Our free-range eggs come directly from a free-range chicken business Schellings in Berlicum, as fresh as they get.
